 Nicolás Luna Niño

---

## Professional Profile

**Data Analyst and Scientist** with a background in life sciences and expertise in computational data analysis. Skilled in developing **data-driven solutions** using Power BI, SQL, Python, and R to **model complex datasets and support strategic decisions**. Interested in applying **data science and analytics methods** to uncover insights, optimize processes, and drive data-informed decision-making.

## Technical Skills

- **Programming & Scripting**  
Python · R · Bash (Advanced)
- **Database Management**  
SQL (Intermediate–Advanced)
- **ETL & Data Wrangling**  
Pandas · Tidyverse · Power Query
- **Statistical Analysis**  
Descriptive Statistics · Exploratory Data Analysis (EDA) · Data Mining
- **Data Visualization**  
Power BI · Excel (Advanced)
- **Version Control & Documentation**  
Git · GitHub
- **Cloud & Computing Platforms**  
HPC Environments (Advanced) · AWS (Basic) – S3, EC2

---

## Professional Experience

Bogotá, Colombia  
**Jan 2022** – Present

### Freelance Data Analyst

*CIMBIUR, Universidad del Rosario (2022 – Present)*

- **Automated data pipelines** to extract, clean, and analyse biological datasets for research and diagnostics.
- **Created an interactive dashboard** to visualize COVID-19 trends (2023–2024), integrating microbiological and clinical data.
- Supported **result interpretation and data reporting** across multiple research initiatives.

- Utilized Power BI, R, and SQL for **visualization and analysis**.

#### *VitalCare (2024)*

- Analysed clinical data to identify cardiovascular risk profiles.
- Transformed health records using **Power Query** and **Python**.
- Built a Power BI dashboard to communicate risk factor patterns.

#### *Café Nativo SAS (2024)*

- Designed a Power BI dashboard to track coffee product sales, prices, and trends.
- Applied **ETL processes** using Excel, Power Query, and R.
- Provided insights to support business strategy and pricing optimization.

Oslo, Norway

**Jan 2024** – Jun 2024

### **Mobility Research Intern**

*University of Oslo – Universidad del Rosario*

*(BigTree Mobility Scholarship)*

- Supported the **development and automation of pipelines** to manage complex biological datasets.
- Used Python and R for **data cleaning, transformation, and exploratory analysis**.
- Contributed to the reproducibility and efficiency of bioinformatic workflows in a cross-institutional research environment.

Bogotá, Colombia

**Jul 2021** – Feb 2024

### **Research Assistant**

*CIMBIUR, Universidad del Rosario*

- Performed ETL on clinical and biological data using **Python** and **SQL**, ensuring quality and consistency.
- Conducted **statistical and bioinformatic analysis** using Python, R, and custom scripts.
- Designed automated pipelines incorporating exploratory statistics and reproducibility standards.
- Developed dashboards with **Power BI** and **R** to communicate findings to technical and non-technical audiences.
- Contributed to the creation and validation of **analysis protocols**.
- Delivered technical reports and visual summaries for interdisciplinary teams.

## **Professional Portfolio**

## Academic Background

---

**Aug 2021** – May 2025

**Master of Science (MSc) in Natural Sciences**

*Universidad del Rosario | Colombia*

**Jan 2017** – Oct 2021

**Bachelor of Science (BSc) in Biology**

*Universidad del Rosario | Colombia*

### *Courses and certificates*

**Oct 2024** – Nov 2024

**Fundamentals of Artificial Intelligence**

*Coderhouse | Argentina*

**Aug 2021** – May 2025

**Data Analytics**

*Coderhouse | Argentina*

## Languages

- **Spanish:** Native
- **English:** Intermediate – Advanced
